S I R:

INFORMATION DISCLOSURE STATEMENT

Respectfully submitted herewith is a copy of a German Patent Office Search Report (3 pages) from the parallel German application 100 63 876.7 of which the present application claims priority, together with copies of its 5 cited references.

In the German Patent Office Search Report the reference listed in category Y means this document together with another document place the invention in question with respect to the listed claims. The references listed in category A mean that these references define the general state of the art which is not considered to be of particular relevance with respect to the listed claims. The references listed in category X means these documents are of particular relevance, and the claimed invention cannot be considered to involve an inventive step when these documents are taken alone with respect to the listed claims.

In the German Patent Office Search Report the words "Kategorie" means category, "Ermittelte Druckschriften/Erläuterungen" means

transmitted publications/explanations, "Figur" means Figure. or illustration(s). Since this translation now points out in English the relevant portions of the citations listed in the German Patent Office Search Report, and since the US patent and the European patent are in the English language, no further concise explanation is required under 1138 OG 38.

A PTO-1449 form is presented listing the 5 submitted references.

Translations of the German language references are not available to the undersigned.

This submission meets the requirements of 37 CFR §1.96, 1.97 and 1.98(a) and MPEP 609.

Respectfully submitted
Ernst-Ulrich Simon
